

Expense Tracker

1. Project Overview

Expense Tracker is a modern mobile application developed using React Native and TypeScript. The application helps users manage their personal finances by tracking income, expenses, budgets, wallet balances, and spending statistics through an intuitive and user-friendly interface.

The application is designed with a clean and modern green-and-white theme, ensuring simplicity and ease of use while providing all essential financial management features.

2. Objective

The main objective of this project is to provide users with a simple and efficient way to:

- Track income
- Track expenses
- View wallet balance
- Monitor spending habits
- Analyze financial statistics
- Manage connected bank accounts
- Receive insights about their financial activities

3. Target Users

The application is intended for:

- Students
- Employees
- Freelancers
- Small business owners
- Individuals managing personal finances

4. Technology Stack

Frontend

1. React Native
2. TypeScript

Navigation

1. React Navigation
2. Stack Navigation
3. Bottom Tab Navigation

UI

1. React Native Components
2. StyleSheet API
3. React Native Vector Icons

Future Backend

1. Django
2. Django Rest Framework (DRF)

Database (Planned)

PostgreSQL (or MySQL, depending on backend implementation)

Future APIs

REST APIs using JSON

5. Theme

Primary Color

#0F766E

Secondary Colors

1. White
2. Light Gray
3. Dark Gray

6. Current Development Status

Project Phase

Frontend UI Development

Completed Modules

- ✓ Splash Screen
- ✓ Onboarding
- ✓ Login
- ✓ Signup
- ✓ Forgot Password
- ✓ Home
- ✓ Statistics
- ✓ Wallet
- ✓ Connect Wallet
- ✓ Connect Wallet Accounts

Remaining Modules

- Profile
- Add Income
- Add Expense
- Transactions
- Settings
- Notifications
- Reports
- Backend Integration

7. Project Goal

The final application should provide a complete personal finance management solution with a modern interface, secure authentication, real-time expense tracking, and financial insights.
